To Whom It May Concern,

I am pleased to recommend Aniket Kumar, who interned with Velocity Road and made a positive, consistent contribution to our team.

Aniket excelled in n8n automation and AI prompt engineering. He integrated tools, documented his work, and helped construct internal workflows.

His primary assignment—turning client sales conversations into structured deliverables—was handled with diligence. He organized information well, asked practical clarifying questions, and incorporated feedback quickly.

Aniket is professional, collaborative, and eager to learn. I have no doubt he will continue to bring value, efficiency, and innovative thinking to any future role.

Sincerely,

Nicolas Gauchat

Managing Director

Velocity Road
